

Environmental Floor Finish

Product Information Sheet

Product Description:

ENVIRONMENTAL FLOOR FINISH is an environmentally responsible green floor finish that is compliant to GS-40 and environmental standards for floor care products. ENVIRONMENTAL FLOOR FINISH exhibits excellent durability and burnish response. It is zinc-free and alkyl phenyl ethoxylate (APE) free. It contains no tributoxyethyl phosphate or phythalates, and is low in VOC content. It has excellent scuff, scratch, and heel mark resistance, and retains a high gloss under heavy traffic conditions. ENVIRONMENTAL FLOOR FINISH meets or exceeds the CSPA and UP slip resistance of .5 minimum as tested on a James Machine by an outside laboratory in accordance with ASTM D2047-99 or UL Method 410.

Benefits

- GS-40
- Contain no zinc or other heavy metals
- Self crosslinking
- Contain no alkyl phenyl ethoxylates (APE)
- Contains no Tributoxyethyl phosphate or other phosphates
- Contains no phythalates
- Low VOC
- High initial gloss
- Extremely durable
- Extremely clear finish
- Does not yellow
- May be dry burnished
