

# DOUBLE DEEP

## Biological Floor Cleaner

Product Information Sheet

### Product Information

DOUBLE DEEP BIOLOGICAL FLOOR CLEANER is a technologically advanced product that provides superior cleaning by penetrating porous surfaces and degrading grease and organic matter that accumulates in cracks, crevices, corners and hard to reach areas. The environmentally friendly formula incorporates effective surfactant chemistry with a microbial consortium for a double deep cleaning.

### Benefits

- Compares with industrial strength cleaners only environmentally friendly
- Reduces slippage by degrading grease
- Controls odors
- Treats drain lines
- Pleasant fragrance
- No rinsing required
- Concentrated for economical use

### Product Specifications

**Appearance:** Blue liquid concentrate-but colorless when diluted

**Odor:** Pleasant orange blossom

**pH:** 7.5-8.0

**Microbes:** Spore based Bacillus strains (Samonella and Shigella free)

**Count:** 200 billion cfu per gallon

**Storage and Handling:** Store in cool dry place. Read MSDS before using. Keep out or reach of children.

**Shelf life:** 2 years at 35°F-95°F

### **Comments**

Use 2-4 ounces per gallon of cool or warm (not extremely hot). Apply to floor. Agitate with brush. For best results, wet vac floor to remove organic material.
