## **Carpet Cleaning Formula-6**

### **Product Information Sheet**

#### Product Description:

**Ecosystem™ Carpet Cleaning Formula-6** is a state of the art product for carpet extraction, shampooing and bonnet cleaning. It may be used on all types of carpet and in all extraction equipment. **Ecosystem™ Carpet Cleaning Formula-6** is highly effective on oily soils as well as most common soils and stains. This unique formulation has a neutral pH so it is safe to use on stain resistant carpet. It is easy to use because there is no need for defoamers, brighteners, or odor counteractants. **Ecosystem™ Carpet Cleaning Formula-6** is packaged with tamperproof dilution-controlled inserts and is ready for quick and easy connection to the **Ecosystem™** dispenser. **Ecosystem™ Carpet Cleaning Formula-6** meets Green Seal's GS-37 standard for green cleaning.

#### Benefits

- Formula meets Green Seal's GS-37 standard for green cleaners
- Readily biodegradable, no phosphates, no VOC's
- Low foaming, added brighteners, added odor counteractant
- Neutral pH
- Safe for stain resistant carpets
- Highly effective –deep cleaning formula

#### **Comments:**

The use of hot water enhances the performance of **Ecosystem™ Carpet Cleaning Formula-6**. Never use hot water on untreated wool. Always test the cleanability of cotton and oriental rugs before using any detergent extraction system.
