

Nature Scrub

Biological Hard Surface Cleaner

Product Information Sheet

Product Description

NATURE SCRUB is an environmentally friendly cleaner for bathroom fixtures, showers, sinks, toilet bowls and urinals. NATURE SCRUB contains billions of microorganisms that will penetrate surfaces and help reduce soap scum build-up, mildew stains and odors. NATURE SCRUB also contains a mild abrasive to help remove dirt from most hard surfaces.

Benefits

- Environmentally Friendly
- Contains mild abrasive for extra cleaning performance
- Microbial formulation helps reduce odors and continues to work on organic build-up in drain lines
- Pleasant fragrance leaves rest room fresh and clean
- Concentrated – A little goes a long way
